

Dear Peter- Glad to hear from you. I'd heard nothing from Ted. Hadn't even gotten the tapes he promised. By coincidence I wrote him yesterday and asked him to speak to you. What was not paid is \$105 for the detector and a subsequent \$24 lab bill.

With the warning proven by the Rockefeller Report, long in advance of it as my warning was, I do hope those of you who can restrain emotion and can distinguish between fact and longing will do what you can to deter any new setbacks of this kind. There is a chance now. Only those to whom I addressed myself are a real danger today. Alas they never stop. I keep hearing the most frightful stuff.

Thanks for the card. I would like to get those expenses back.
Hope you have a good summer.

Sincerely,
